Omega Optical RoHS-2 Compliance Certification
Supplier Exemption to RoHS2 Directive 2016/863/EU

The RoHS-2 Directive, 2015/863/EU, regarding the “use of certain hazardous substances in electrical and electronic equipment” does not apply to products produced by Omega Optical, Inc.

The processes at Omega Optical do not utilize Lead, Mercury, Cadmium, Hexavalent Chromium, Polybrominated Biphenyls, Polybrominated Diphenyl Ethers or the following Phthalates; DEHP, BBP, DBP or DIBP in any amounts in our products.

Our products will therefore remain compliant when exemptions to current regulated substances and levels expire in 2021.
